The date your payment is due depends on the date of the invoice. Invoices are sent by email and must be paid within 30 days. As states on the contract, interest is added to any past due amounts. The interest rate on past due accounts is indicated on the invoice.

Interest rates will be subject of an additional invoice.

D) Penalties

Annual fees charged by CAEQ cover the costs in relation with the management of the accreditation file of the certification body during the year. Nevertheless, some events like the submission of document without the respect of the deadline or the submission of uncomplete document, lead to additional delays, new planning (audit calendar, moved meeting ...) and other administrative costs for CAEQ.

Consequently, CAEQ put in place a penalty to cover those additional costs. This fee is in addition of the financial penalty for unpaid invoice and the granting of non-conformity, if necessary.

Due to activities in several countries, the CAEQ has decided to introduce an indexation of some costs depending of the location of the main office of the certification body.
